

Letters to the editor...

NB: Please keep letters to approx 100-150 words in length. Ed.

RE: EDITOR'S HEART

Dear Duncan, Hello. Hope everyone at Nexus is well and happy. In regard to your review of Hidden Crimes, Vol.2, No.5. I agree with the assessment of this incredible film, but I must question something you wrote, and I quote "For years I have noted the passionate Animal Libbers, and thought to myself, well it's either experiment on animals or experiment on humans." Considering that you may not have known about the many 'alternatives' to vivisection when the above-mentioned thought system was prevalent, and also considering that you are the editor of a magazine that seeks to expose injustice; I ask you, what greater injustice is there, than torturing innocent beings in the hope of curing the (mostly self-inflicted, 60% diet-related, 20% tobacco related) ills of the human being? Did you forget to include a change of heart, or do you still believe that if vivisection assisted humanity it could be justified?

Duncan, I really hope I've read you wrong, because from the son of the man who wrote *Journey Into Nature*, one would reasonably expect compassion and understanding for all life-forms. I mean no offense and ask these questions with respect. I would appreciate a reply. Thank you. Blessed Be.

Sincerely, Kathryn M. Randwick NSW.

(Dear Kathryn, To be honest - the whole issue was one that I was really not informed on. I had no idea of the extent of the suffering of the

animals, nor had I any idea of the sheer quantity or scale of the business surrounding it. The fact that it is a fraud anyway really flipped my lid, if you will pardon the expression.

I did have a considerable change of heart on the whole subject, but only after becoming fully aware of the issues involved. - Ed)

RE: IT'S ALL A MALE CONSPIRACY

Dear Editor, I enjoy reading Nexus because it deals both with the mysteries of this planet and the corruption of human life upon it. Though I believe some of what you print is fanciful, it is certainly closer to the truth than what we usually read in magazines and newspapers.

However, it astounds me continually that you completely overlook the major conspiracy and corruption existing on this planet. That is the cruel subjugation of women to patriarchal dominance.

You blithely carry on in your pages without ever mentioning or addressing the issue. Your magazine is as male dominated and patriarchal in form as any other.

Why should women worry about the "Committee of 300" (see pages 9 and 58 last issue) when we have a committee of 2.5 billion [men] controlling our lives.

Chris S. Bondi Beach NSW.

(Dear Chris, I think blaming all your problems on men is as silly as blaming them on Jews, or Freemasons, or Grey Aliens. I am sorry you feel that Nexus is 'patriarchal, especially because I

consider Nexus to be one of the few magazines not specifically aimed at any sex. We just aim to dig up hard to get information and publish it for those people interested enough to appreciate this.

I think your comments are silly, and do not do your 'cause' much good. Ed)

RE: A WONDERFUL MAGAZINE

Dear Catherine, My name is Frank N. I am a reader of your magazine for about one year now and I would just like to say, that your magazine is straight to the point with all the facts. I really like reading your magazine and I think a lot of other people do too. I think that you and your team really do stand behind the name of your magazine, Nexus Magazine. I had just recently bought from your magazine, Parts 1 & 2 of the UFO Infopax, and they were full of information and I thank you for them. I know for now I will always buy your magazine because it is worth reading. Well I hope you all keep up the good work because your magazine is the best.

Yours faithfully, Frank N. McGraths Hill, NSW.

(Thank you for those comments, it is nice to know that the magazine is appreciated - Catherine)

RE: OXYGEN THERAPIES, UFO BOOKS

Dear Duncan, I wish to thank you for putting both my wife and myself onto oxygen therapy, we were both impressed with the initial cleansing process, and are continuing.

The material in all issues has been fascinating and

mind-boggling as well.

I have just finished reading "Alien Liaison" and together with the beaut article by "Bo" Gritz, we wonder as to the future - but it's reassuring to at least know some of what is going on.

Recently I was made aware of a small scale cover-up, which has no logical explanation. The wife's sister-in-law near Newcastle (NSW) wrote that a friend of hers had borrowed a book from Newcastle Library and enjoyed it so much he decided to borrow it again and read it more in-depth.

To his surprise and consternation the library people insisted that he was mistaken - that they had never heard of the book, nor had they ever had it in stock! This info, really flooded the person; and knowing his friend was also a UFO buff relayed the details to her. He, the wife's brother, then suggested that I may be able to get some answers.

So, here it is: The book is "The Expanding Case for UFOs" by M.K. Jessup.

I discovered that M.K. Jessup died mysteriously, in a case in which many suspect he was murdered or even silenced on the UFO issue.

The book was unavailable at any bookstore or library we tried anywhere.

I realise that you have a lot on your plate, but I would be interested in your reaction and comment whenever.

Keep up the good work, and congratulations on an excellent information outlet.

Best wishes from George & Clare at Pomona.

(Thanks George, I'll speak to you soon again. Duncan)
